

SMALLPOX AND MEAT

The Two Leading Themes of Discussion Last Night

AT THE CITY COUNCIL'S MEETING

A Bill from the Health Officer for Attending Patients in the Pest House Causes Considerable Talk and is Finally Left to the Solicitor. The Amendment to the Meat Ordinance Goes Back to the Committee.

There was no difficulty in getting a quorum for last night's called meeting of council, but as the night was. The scoring the members who had been remiss in attendance received on account of the failure to secure a quorum at the last two meetings brought together fourteen members of the first branch and twenty-three of the second.

The first thing taken up was the report on liquor licenses. Peter Zimmer, Charles Klein, Feinler & Co., Daniel O'Brien and John Minkemeyer were granted licenses and they and their sureties were called up to qualify as to their bonds.

Bills for \$129.10 were ordered paid on recommendation of the committee on health and \$77.75 from the police committee. The committee on finance reported as to the payment of bonds and coupons in the past year, and recommended the payment of commissions and for clerical services, which was ordered done. The amount in all was \$438.43. The committee on cemeteries recommended for payment bills for \$75, which were ordered paid, with \$3 from the scales committee.

The report of the street committee fixing the grade of Ohio street, McCulloch street and Alley 15 was read, and the accompanying ordinance read three times and passed.

The ordinance making the appropriations for June, one-twelfth of the appropriation made last year, was then introduced, put through the required formalities and passed.

PAY FOR ATTENDING SMALLPOX CASES.

The bills of the health committee for June were taken up and ordered paid. They aggregated \$460.10. Mr. Clator moved to strike out \$265 charged by Dr. Walden for visits to the pest house. Mr. Britt moved to require an itemized account, but this had already been made, charging \$5 per visit, except when he went twice a day, when he charged \$5 for the two visits.

Dr. Taylor, Dr. Stathers, Mr. Frow and Mr. Hamilton favored paying the bill. Mr. Hahne thought when the health officer got \$1,000 a year it was pretty steep to pay him \$5 a visit. Mr. Lindsay did not take this view of it, and thought the bill should be paid. Mr. John Llewellyn wanted to know what the health officer's duties were if this was not one of them. Mr. Britt thought the ordinance required the health officer to attend to such cases without any charge outside of his salary. Dr. Stathers read another section just to the contrary effect.

Mr. Hamilton demanded the eyes and noses, and the motion to strike out was rejected by a vote of 16 to 8. The bills as reported by the committee were then ordered paid.

In the first branch, on motion of Mr. Butts the \$265 was stricken out by a vote of 9 to 5, after considerable talk. Messrs. Robinson, Irwin, Menkemiller and Butts favored striking out. Mr. McKelvey opposed.

On this the second asked a committee of conference. Messrs. Hamilton, Waterhouse and Bodley being appointed. The first named Messrs. Butts, Otto and Richards. The committee had a long consultation and then recommended that the propriety of Dr. Walden's charges be referred to the city solicitor.

CONTAGIOUS DISEASES.

Mr. Hamilton presented a resolution requiring guards at all houses where there may be a case of smallpox, no person to be allowed to enter or leave such houses without a written permit from the health officer.

This caused some discussion, especially as to the matter of cost. Mr. Hamilton thought smallpox was not the only nor the worst disease, and that the same precautions should be taken with measles, scarlet fever, diphtheria and typhoid fever. His resolution was rejected by a vote of 15 to 6.

Mr. Hamilton—Now I understand the health committee is not to do its duty; all right!

Dr. Taylor—That is the effect of that action, exactly.

The cemeteries committee asked an appropriation of \$400 to beautify the Sixteenth street cemetery, saying this would be "sufficient to realize a long felt hope." The request was referred to the finance committee.

A bill from Hallock Bros. for \$200 for work on the Hutchinson building ruins, ordered by the mayor and fire chief, was ordered paid out of the board of public works' contingent fund.

THE MEAT ORDINANCE SENT BACK.

The ordinance amending the ordinance in reference to the sale of meat so as to allow any person to sell meat of his own "raising" in quantities to suit purchasers, was then read. Mr. Britt proposed an amendment so as to allow the sale of meat at any place in the markets, and not to require the renting of a stall.

Mr. Clator moved to refer the ordinance to the committee on markets, which was rejected.

Mr. Waterhouse raised the point that to amend an ordinance the entire ordinance must be re-enacted with the amendment incorporated, and President Maxwell sustained this point. Mr. Retzer moved to refer back to the ordinance committee, which was done.

A resolution providing for arbitration as to the dispute over the Cotts property, used for a street in East Wheeling, was adopted, the mayor to appoint one arbitrator, Mr. Cotts another and these two a third.

Mr. Britt presented a resolution that no committee meeting should be held on the same night as council meets, but this was ruled out of order and withdrawn.

A motion of Mr. Hahne that the board of public works be instructed to establish a grade on Water street in the Eighth ward was referred to the committee on streets, alleys and grades.

TO NAME STREETS AND NUMBER HOUSES.

Mr. Hahne also presented a resolution providing for signs designating the streets and alleys at each corner, and notifying all citizens to have their houses numbered. This was generally pronounced a good thing, and was referred to the finance committee for an estimate of the cost.

Louis Niebergahl asked that he be allowed to construct a railroad switch across Water street to his place of business, referred to the committee on ordinances.

R. M. Williamson's resignation as

weigher on Twentieth street was accepted.

Dr. Taylor moved that the two branches go into joint session for the election of a city weigher to succeed Mr. Williamson. This was done. Dr. Taylor nominated Assistant Weigher Yeager. Mr. Hamilton named Walter Higgins. Mr. Britt named John G. Haberfeld. Yeager had 19 votes, Haberfeld 13 and Higgins 1, all those who voted for Higgins but one changing to one of the other candidates. The joint session then dissolved.

The first branch concurred in everything done by the second, except as already noted.

The Health Board.

At the meeting of the health committee last evening it was reported that a case of smallpox had broken out in the family of J. M. Smith, on South street, near Main, and another on East Eighteenth street, while still another case was suspected to be smallpox, but had not yet progressed far enough to tell. It is located near the other Eighteenth street case. The necessary precautions to prevent the spread of the contagion were taken.

The Sixteenth Street Cemetery.

The committee on cemeteries last evening opened the bids for making the proposed improvements and adornments in the abandoned cemetery at McCulloch and Sixteenth streets. There were six bids. Thomas Coffey was willing to do the work for \$115, while G. P. Walter wanted \$975. L. G. Hallock bid \$875, J. Lavey \$170, J. S. Shriver \$710 and P. Mahoney \$700. The job was awarded to Coffey at \$115.

STILL HIGHER TEMPERATURE.

The Excessive Heat of the Past Ten Days Still Exceeded.

Yesterday's weather showed a rise in the mercury in C. A. Schneff's standard thermometer even above the unusually high record of the preceding four days. The thermometer registered 101 in the shade at intervals, and averaged much higher by hourly stages than even on Sunday, when it reached 100.1. Following is an interesting comparative statement:

THE HEAT AT HOURLY INTERVALS.

Thurs.	Fri.	Satur.	Sun.	Mon.
day.	day.	day.	day.	day.

8	90	90	91	95
9	86	88	88	92
10	84	86	85	91

There were times between the even hours yesterday when the mercury was even higher than 100. At 11:15 it marked 100.1, and at 11:30, 101. At 11:45 it was a little above 101, and again at 12:30 it registered 101. It was the hottest June day ever recorded here, and five days in succession averaging as high temperature as the last five days is something altogether unprecedented in local history. Somewhat less torrid air is predicted for to-day.

Serious Effects of the Heat.

Yesterday afternoon while Elmer Foster, who drives a wagon for the Pabst Brewery Company, was working at the Baltimore & Ohio station he was overcome by the heat and fell unconscious. He was hauled to his home in the patrol wagon. While he was pretty seriously affected, it was said last night that he was on a fair way to recovery. Dr. Bulard is attending him.

Mrs. Theodore F. Wells, of 2505 Jacob street, was walking about in the yard, when she was overcome by the heat and fell unconscious. Dr. Riggs was summoned, and he was compelled to work for about two hours before the lady was out of danger.

Whitaker Oil Company Organized.

The Whitaker Oil and Oil Land Company held a general stockholders' meeting last night, and organized by the election of a board of directors, composed of N. E. Whitaker, C. D. Elliott, N. B. Scott, A. C. Whitaker and G. W. Atkinson. The board then elected Hon. N. E. Whitaker, president; Hon. N. B. Scott, general manager, and G. W. Atkinson, secretary and treasurer. This company has already secured several thousand acres of oil territory, and promises to be an active factor in the oil development of the state.

Stenboville M. E. Conference.

Last evening the Stenboville district conference of the M. E. church met in Bridgeport. It was opened by an address by Rev. Dr. Ackerman, of Chattanooga, Tenn., who represents the Southern Education Society. Many ministers are in attendance. Several candidates for license as preachers were examined by the committee yesterday.
